

Our client is a global provider of wireless solutions that provide visibility aiming to improve efficiency and safety as well as security in industrial operating environments. Our clients industry-specific solutions are based on a robust wireless network used by the world's leading blue-chip companies in the Oil & Gas, Marine & Ports, Automotive and Mining & Tunneling industries as well as in other harsh environments.

Our client set the industry standard in the RFID industry with the introduction of its intelligent long-range, low-power wireless communication. For almost two decades, our client has made pioneering efforts that have led directly to the emerging megatrends of connecting machines and 'things' via the internet with subsidiaries in Austria, Norway, Germany, USA and Australia
