

## 1. TITLE OF THE CERTIFICATE (ES)

**Certificado de Profesionalidad de nivel 2 en  
ELEE0209 MONTAJE Y MANTENIMIENTO DE REDES ELÉCTRICAS DE ALTA TENSIÓN DE SEGUNDA Y TERCERA  
CATEGORÍA Y CENTROS DE TRANSFORMACIÓN**

## 2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

**Professional Certificate Level 2 in  
ELEE0209 INSTALLATION AND MAINTENANCE OF SECOND AND THIRD CATEGORY HIGH VOLTAGE ELECTRICAL  
NETWORKS AND TRANSFORMER SUBSTATIONS  
(This translation has no legal status)**

## 3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to install and maintain second and third category high voltage electrical networks, and transformer substations, fulfilling quality criteria, in safety conditions and complying with applicable standards. This general competence is divided into the following **skills units** (UC):

- Install and maintain second and third category high voltage aerial electrical networks (UC1177\_2).
- Install and maintain second and third category high voltage underground electrical networks (UC1178\_2).
- Install and maintain transformer substations (UC1179\_2).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Installation and maintenance of high voltage aerial electrical networks (MF1177\_2).
- Installation and maintenance of high voltage underground electrical networks (MF1178\_2).
- Installation and maintenance of transformer substations (MF1179\_2).
- Practical training at the workplace in installation and maintenance of second and third category high voltage electrical networks and transformer substations (MP0205)

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Install aerial and underground high voltage electrical networks.
- Install and repair aerial and underground high voltage electrical networks.
- Install outdoor and prefabricated transformer substations.
- Maintain and repair outdoor and prefabricated transformer substations.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

## 4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in the electrical power generation and distribution industry, in the installation and maintenance of high voltage electrical networks and transformer substations. The most pertinent occupations and positions are:

- General installer-repairer of electrical power lines.
- Installer-repairer of high voltage electrical lines.
- Connector of aerial and underground electrical cables.
- Installer of electrical lines.
- Installer of underground electrical lines.
- Installer of electric traction lines.
- Installer and repairer of electrical lines.
- Installer-maintainer of (aerial and underground) electrical networks.
- Installer-maintainer of electrical power networks and distribution substations.

<b>5. OFFICIAL BASIS OF THE CERTIFICATE</b>
<p style="text-align: center;"><b>Name and status of the national/regional authority providing accreditation/recognition of the certificate</b></p> <p>The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King. The certificate is valid throughout Spain.</p>
<p style="text-align: center;"><b>Level of the certificate</b></p> <p>The Professional Certificate Level 2 of the National Repertoire of Professional Certificates corresponds to level 3 of the International Standard Classification of Education (ISCED-P 2011).</p> <p>The European Qualification Framework (EQF) level:</p>
<p style="text-align: center;"><b>Grading scale/Pass requirements</b></p> <p>The grading scale and pass level of the training modules are expressed on a scale of 0 to 10. The minimum score for a pass is 5 in every training module including a pass in the practical training at the workplace module.</p> <p>The grading system is as follows:</p> <ul style="list-style-type: none"> <li>- FAIL: 0 to 4.9</li> <li>- PASS-SATISFACTORY: 5 to 6.9</li> <li>- PASS-GOOD: 7 to 8.9</li> <li>- PASS-EXCELLENT: 9 to 10</li> </ul>
<p style="text-align: center;"><b>Access to next level of education/training</b></p> <p>This Professional Certificate Level 2 gives access to Professional Certificate Level 3 within the same professional area and family.</p> <p>For validation purposes, the educational authorities will recognise the professional module or modules of the VET diplomas corresponding to the skills units included in the training modules of this certificate.</p>
<p style="text-align: center;"><b>Legal basis</b></p> <p>Royal Decree 683/2011 of 13 May, establishing six professional certificates in the professional family Electricity and Electronics, which are included in the National Repertoire of Professional Certificates, and updating the professional certificates established in Royal Decree 1214/2009 of 17 July. (Appendix IV Code: ELEE0209)</p>

## 6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

This certificate may be acquired by:

1. Training: Completion with a pass grade of the face-to-face or online training programme.
2. Recognition of the professional skills acquired through professional experience or non-formal training (prior learning): Completion of a process of skills evaluation and accreditation in all the skills units making up the professional certificate.
3. Dual training: Completion of a training and apprenticeship contract, which may range from 1 year (or 6 months, if stipulated as such in the collective agreement) to 3 years, during which effective working time is combined with time dedicated to training under the training programme for the professional certificate.

The training method (number 1 above) requires successful completion of the training modules and the practical training at the workplace:

Description of vocational training received	Percentage of total programme (%)	Duration (hours)
Training modules	84	410
Practical training at the workplace	16	80
<b>Total duration of training leading to the certificate</b>		<b>490</b>

### Entry/access requirements:

- Compulsory Secondary Education Diploma (Lower secondary education); or
- Professional Certificate Level 1 in the same professional area.
- If neither of the above or higher certifications are held, a pass in the key skills tests.

**Additional information:** Professional certificates are instruments for official accreditation of the professional qualifications in the National Catalogue of Professional Qualifications for all economic activities, within the scope of the labour administration. The National Repertoire of Professional Certificates is divided into three qualification levels (Level 1, Level 2 and Level 3), and by sectors into 26 professional families and 102 professional areas. More information is available at: [www.sepe.es](http://www.sepe.es)

National Europass Centre: [www.oapee.es](http://www.oapee.es)

(\*) **Explanatory note:** This document is designed to provide additional information about the specified certificate, but has no legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications; Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates; and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.
