

1. TITLE OF THE CERTIFICATE (ES)

**Certificado de Profesionalidad de nivel 2 en
ELES0108 MONTAJE Y MANTENIMIENTO DE INFRAESTRUCTURAS DE TELECOMUNICACIONES EN EDIFICIOS**

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

**Professional Certificate Level 2 in
ELES0108 INSTALLATION AND MAINTENANCE OF TELECOMMUNICATIONS INFRASTRUCTURES IN BUILDINGS
(This translation has no legal status)**

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to install and maintain telecommunications installations to receive sound and TV broadcast signals: with aerials and cables, as well as telephony and internal communications in buildings and sets of buildings, applying the techniques and procedures required for each case, fulfilling quality criteria, under safety conditions and in compliance with applicable legislation. This general competence is divided into the following **skills units** (UC):

- Install and maintain installations to receive sound and TV broadcast signals in buildings or sets of buildings (with aerials and cable) (UC0120_2).
- Install and maintain installations to access telephony service available to the public and access control installations (internal telephones and video entry telephones) (UC0121_2).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Installation and maintenance of communal and individual aerials (MF0120_2).
- Installation and maintenance of telephone and internal communications installations (MF0121_2).
- Practical training at the workplace in Installation and maintenance of telecommunications infrastructures in buildings (MP0093)

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Install aerials in building environments.
- Repair aerial breakdowns in building environments.
- Install telephone and intercommunication systems in building environments.
- Repair breakdowns in telephone and intercommunication systems.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in companies devoted to installation of sound and TV broadcast signal receivers and telephone and interior communication systems. The holder may also work in installation and maintenance of individual and communal aerials; installation and maintenance of internal communication systems; installation and maintenance of access control systems; and installation and maintenance of telephone systems. The most pertinent occupations and positions are:

- Aerial installer.
- Telecommunications installer in housing buildings.
- Installer of telephone equipment and systems.
- Repairer of telephone installations.
- Installer of receiving aerials/satellite televisions.
