

1. TITLE OF THE CERTIFICATE (ES)

Certificado de Profesionalidad de nivel 2 en
EOCJ0110 INSTALACIÓN DE PLACA DE YESO LAMINADO Y FALSOS TECHOS

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Professional Certificate Level 2 in
EOCJ0110 INSTALLATION OF LAMINATED DRYWALL AND FALSE CEILINGS
(This translation has no legal status)

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to organise and execute the installation of laminated drywall for buildings, panels, partition walls and suspended ceiling systems, as well as false ceilings made of other materials, using finishing techniques for the joints between panels, following the guidelines specified in the technical documentation and the indications of a superior or foreman, while complying with regulations established on health and safety and quality, and collaborating on risk prevention in the holder's professional area. This general competence is divided into the following **skills units** (UC):

- Carry out basic installation of laminated drywall (UC1903_1).
- Install partition walls and self-supporting laminated drywall panels (UC1920_2).
- Install false ceiling systems (UC1921_2).
- Treat joints between laminated plasterboard (UC1922_2).
- Organise the installation of drywall and false ceilings (UC1923_2).
- Control risks in construction at a basic level (UC1360_2).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Basic installation work for laminated drywall (MF1903_1).
- Partition walls and self-supporting laminated drywall panels (MF1920_2).
- False ceiling systems (MF1921_2).
- Treatment of joints between laminated drywall panels (MF1922_2).
- Organisation of the installation of laminated drywall and false ceilings (MF1923_2).
- Basic occupational risk prevention in construction (MF1360_2).
- Practical training at the workplace in installation of laminated drywall and false ceilings (MP0335).

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Apply techniques for handling materials in different jobs related to laminated drywall systems, such as assembly, assistance in installation and hanging loads, while complying with specific conditions of quality and health and safety.
- Apply techniques for the installation of direct and semi-direct laminated drywall panels using adhesion pastes or metal profiles, as appropriate, while complying with the quality and health and safety conditions established.
- Determine the on-site layout of the laminated drywall systems and false ceilings to be installed, analysing the necessary technical documentation such as plans and specifications contained in the projects or manufacturers' recommendations, and identifying the materials and structures to be assembled, together with the associated installations, adjusting the on-site layout to the actual installation conditions.
- Apply techniques for installing self-supporting panels (free and bridged) and laminated drywall partition walls of normal height and great height, complying with established quality and safety and health conditions.
- Apply techniques for the installation of false ceilings in laminated drywall of normal size and large span structures, complying with the established quality and safety and health conditions.
- Apply techniques for installing false drop ceilings, complying with established quality and health and safety conditions.
- Apply techniques for manual treatment of joints and recoating for all kinds of installed laminated drywall without apparent joints, determining the type of treatment to apply and complying with established conditions of quality and health and safety.

3. PROFILE OF SKILLS AND COMPETENCES

- Apply installation techniques for auxiliary and collective protection resources normally used in installations of laminated drywall systems, collaborating on their installation and correcting the deficiencies of those already installed, while complying with specific health and safety measures.
- Organise, measure and assess the work on laminated drywall installations and false ceilings, taking into account the capacity of the workers on the team, and coordinating with related trades.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in the construction sector, mainly in the building of new constructions and restoration. The most pertinent occupations and positions are:

- Laminated drywall installer.
- False ceiling installer.
- Joint finisher for laminated drywall.
- Foreman of laminated drywall or false ceiling system fitters.

The holder of this professional certificate has recognition of the basic level training in labour risk prevention, according to Annex IV of the Royal Decree 39/1997 of 17 of January approving the Labour Risks Prevention Act.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the national/regional authority providing accreditation/recognition of the certificate

The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King. The certificate is valid throughout Spain.

Level of the certificate

The Professional Certificate Level 2 of the National Repertoire of Professional Certificates corresponds to level 3 of the International Standard Classification of Education (ISCED-P 2011).

The European Qualification Framework (EQF) level:

Grading scale/Pass requirements

The grading scale and pass level of the training modules are expressed on a scale of 0 to 10. The minimum score for a pass is 5 in every training module including a pass in the practical training at the workplace module.

The grading system is as follows:

- FAIL: 0 to 4.9
- PASS-SATISFACTORY: 5 to 6.9
- PASS-GOOD: 7 to 8.9
- PASS-EXCELLENT: 9 to 10

Access to next level of education/training

This Professional Certificate Level 2 gives access to Professional Certificate Level 3 within the same professional area and family.

For validation purposes, the educational authorities will recognise the professional module or modules of the VET diplomas corresponding to the skills units included in the training modules of this certificate.

5. OFFICIAL BASIS OF THE CERTIFICATE

Legal basis

Royal Decree 615/2013 of 2 August, establishing twelve professional certificates in the professional family Construction and Civil Work, which are included in the National Repertoire of Professional Certificates, and updating the professional certificate established as Appendix I of Royal Decree 1966/2008 of 28 November, and the professional certificates established as Appendices I, II and III of Royal Decree 1212/2009 of 17 July and as Appendices I, II and II of Royal Decree 644/2011 of 9 May. (Appendix V, Code: EOCJ0110)

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

This certificate may be acquired by:

1. Training: Completion with a pass grade of the face-to-face or online training programme.
2. Recognition of the professional skills acquired through professional experience or non-formal training (prior learning): Completion of a process of skills evaluation and accreditation in all the skills units making up the professional certificate.
3. Dual training: Completion of a training and apprenticeship contract, which may range from 1 year (or 6 months, if stipulated as such in the collective agreement) to 3 years, during which effective working time is combined with time dedicated to training under the training programme for the professional certificate.

The training method (number 1 above) requires successful completion of the training modules and the practical training at the workplace:

Description of vocational training received	Percentage of total programme (%)	Duration (hours)
Training modules	86	470
Practical training at the workplace	14	80
Total duration of training leading to the certificate		550

Entry/access requirements:

- Compulsory Secondary Education Diploma (Lower secondary education); or
- Professional Certificate Level 1 in the same professional area.
- If neither of the above or higher certifications are held, a pass in the key skills tests.

Additional information: Professional certificates are instruments for official accreditation of the professional qualifications in the National Catalogue of Professional Qualifications for all economic activities, within the scope of the labour administration. The National Repertoire of Professional Certificates is divided into three qualification levels (Level 1, Level 2 and Level 3), and by sectors into 26 professional families and 102 professional areas. More information is available at: www.sepe.es

National Europass Centre: www.oapee.es

(*) **Explanatory note:** This document is designed to provide additional information about the specified certificate, but has no legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications; Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates; and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.
