

1. TITLE OF THE CERTIFICATE (ES)

Certificado de Profesionalidad de nivel 2 en
EOCJ0211 INSTALACIÓN DE SISTEMAS TÉCNICOS DE PAVIMENTOS, EMPANELADOS Y MAMPARAS

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Professional Certificate Level 2 in
EOCJ0211 INSTALLATION OF TECHNICAL PAVING, PANELLING AND SCREEN SYSTEMS
(This translation has no legal status)

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to install raised floors and dismantlable technical screen and panelling systems, as well as light floating floors, following the guidelines specified in the technical documentation and the indications of a superior or foreman, complying with regulations established on health and safety and quality, and collaborating on risk control in the holder's professional area. This general competence is divided into the following **skills units** (UC):

- Make good and prepare supports for cladding in construction (UC0871_1).
- Install light floating floors (UC1902_1).
- Install raised floors (UC1924_2).
- Install screens and removable technical panels (UC1925_2).
- Control risks in construction at a basic level (UC1360_2).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Treatment of surfaces for cladding in construction (MF0871_1).
- Light floating floors (UC1902_1).
- Raised floors (MF1924_2).
- Screens and removable technical panels (MF1925_2).
- Basic occupational risk prevention in construction (MF1360_2).
- Practical training at the workplace in installation of technical paving, panelling and screen systems (MP0484)

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Prepare and level surfaces for cladding in construction following regulations and instructions.
- Install light floating floors, in accordance with the documentation and instructions received.
- Install raised floors in accordance with the documentation and instructions received.
- Install removable technical screens and panels in accordance with the documentation and instructions received.
- Apply installation techniques for auxiliary and collective protection resources normally used in executing technical paving, panelling and screen systems, collaborating on their installation and correcting any deficiencies found in those already installed, while complying with specific health and safety measures.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in the construction sector, mainly in the building of new constructions, renovation and reforms. The most pertinent occupations and positions are:

- Lightweight flooring fitter, in general.
- Carpet fitter.
- Fitter of light prefabricated materials (construction).
- Installer of raised floors.
- Installer of technical screen and panelling systems.

The holder of this professional certificate has recognition of the basic level training in labour risk prevention, according to Annex IV of the Royal Decree 39/1997 of 17 of January approving the Labour Risks Prevention Act.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the national/regional authority providing accreditation/recognition of the certificate

The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King. The certificate is valid throughout Spain.

Level of the certificate

The Professional Certificate Level 2 of the National Repertoire of Professional Certificates corresponds to level 3 of the International Standard Classification of Education (ISCED-P 2011).

The European Qualification Framework (EQF) level:

Grading scale/Pass requirements

The grading scale and pass level of the training modules are expressed on a scale of 0 to 10. The minimum score for a pass is 5 in every training module including a pass in the practical training at the workplace module.

The grading system is as follows:

- FAIL: 0 to 4.9
- PASS-SATISFACTORY: 5 to 6.9
- PASS-GOOD: 7 to 8.9
- PASS-EXCELLENT: 9 to 10

Access to next level of education/training

This Professional Certificate Level 2 gives access to Professional Certificate Level 3 within the same professional area and family.

For validation purposes, the educational authorities will recognise the professional module or modules of the VET diplomas corresponding to the skills units included in the training modules of this certificate.

Legal basis

Royal Decree 615/2013 of 2 August, establishing twelve professional certificates in the professional family Construction and Civil Work, which are included in the National Repertoire of Professional Certificates, and updating the professional certificate established as Appendix I of Royal Decree 1966/2008 of 28 November, and the professional certificates established as Appendices I, II and III of Royal Decree 1212/2009 of 17 July and as Appendices I, II and II of Royal Decree 644/2011 of 9 May. (Appendix I, Code: EOCJ0211)

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

This certificate may be acquired by:

1. Training: Completion with a pass grade of the face-to-face or online training programme.
2. Recognition of the professional skills acquired through professional experience or non-formal training (prior learning): Completion of a process of skills evaluation and accreditation in all the skills units making up the professional certificate.
3. Dual training: Completion of a training and apprenticeship contract, which may range from 1 year (or 6 months, if stipulated as such in the collective agreement) to 3 years, during which effective working time is combined with time dedicated to training under the training programme for the professional certificate.

The training method (number 1 above) requires successful completion of the training modules and the practical training at the workplace:

Description of vocational training received	Percentage of total programme (%)	Duration (hours)
Training modules	80	310
Practical training at the workplace	20	80
Total duration of training leading to the certificate		390

Entry/access requirements:

- Compulsory Secondary Education Diploma (Lower secondary education); or
- Professional Certificate Level 1 in the same professional area.
- If neither of the above or higher certifications are held, a pass in the key skills tests.

Additional information: Professional certificates are instruments for official accreditation of the professional qualifications in the National Catalogue of Professional Qualifications for all economic activities, within the scope of the labour administration. The National Repertoire of Professional Certificates is divided into three qualification levels (Level 1, Level 2 and Level 3), and by sectors into 26 professional families and 102 professional areas.
