

1. TITLE OF THE CERTIFICATE (ES)

Certificado de Profesionalidad de nivel 2 en
FMEH0209 MECANIZADO POR CORTE Y CONFORMADO

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Professional Certificate Level 2 in
FMEH0209 MACHINING BY CUTTING AND FORMING
(This translation has no legal status)

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to carry out operations of machining by cutting, forming and similar special processes to obtain products with criteria of quality, safety and respect for the environment This general competence is divided into the following **skills units** (UC):

- Decide on the cutting and forming processes (UC0095_2).
- Prepare and program cutting and forming machines and systems (UC0096_2).
- Machine products by cutting and forming and special similar procedures (UC0097_2).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Procedures for machining by cutting and forming (MF0095_2).
- Preparation and programming of cutting and forming machines and systems (MF0096_2).
- Machining by cutting and forming and special procedures (MF0097_02).
- Practical training at the workplace in Machining by cutting and forming (MP0125)

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Order the operations in a machining process according to the production sequence, relating each operation to its machines, production methods, control and checking tools, parameters and specifications.
- Apply techniques that allow the preparation and start-up of machines, equipment and tools for the cutting and forming, taking into account the standards relating to occupational risks and environmental protection.
- Prepare CNC (in Spanish *Control Numérico por Computadora*) programs for punching or folding.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in the preparation of machines or systems for the cutting and forming of sheet metal (presses, punching machines, sheet metal benders, sheet metal processing lines, laser cutters, water jet cutters, etc.) as well as execution of machining by forming or cutting or similar procedures, either in conventional or CNC machines. The holder may work in the subsector of metal transforming industries, within the electromechanical sector, metallurgy, manufacture of metal products, construction of machinery and mechanical equipment, electric, electronic or optical material, or transport material.

The most pertinent occupations and positions are:

- Worker manufacturing mechanical, adjusting, modelling-moulding and similar tools.
- Cutting and forming machine tools operator.
- On site programmer of CNC (in Spanish *Control Numérico por Computadora*) machine tools.
- Machine tool fitter.
- Machine tool fitter with CNC for working with metals.
- Operator of metal cutting machines.
- Metal oxy-cutting machine operator.
- Brushing-sanding machine operator (metals).
- Stamping plant operator.
- Metal press machine operator.
- Broaching machine operator (metals).

The holder of this professional certificate has recognition of the basic level training in labour risk prevention, according to Annex IV of the Royal Decree 39/1997 of 17 of January approving the Labour Risks Prevention Act.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the national/regional authority providing accreditation/recognition of the certificate

The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King. The certificate is valid throughout Spain.

Level of the certificate

The Professional Certificate Level 2 of the National Repertoire of Professional Certificates corresponds to level 3 of the International Standard Classification of Education (ISCED-P 2011).

The European Qualification Framework (EQF) level:

Grading scale/Pass requirements

The grading scale and pass level of the training modules are expressed on a scale of 0 to 10. The minimum score for a pass is 5 in every training module including a pass in the practical training at the workplace module.

The grading system is as follows:

- FAIL: 0 to 4.9
- PASS-SATISFACTORY: 5 to 6.9
- PASS-GOOD: 7 to 8.9
- PASS-EXCELLENT: 9 to 10

Access to next level of education/training

This Professional Certificate Level 2 gives access to Professional Certificate Level 3 within the same professional area and family.

For validation purposes, the educational authorities will recognise the professional module or modules of the VET diplomas corresponding to the skills units included in the training modules of this certificate.

Legal basis

Royal Decree 684/2011 of 13 May, establishing twelve professional certificates in the professional family Metal working, which are included in the National Repertoire of Professional Certificates.
(Appendix III, Code: FMEF0209)

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

This certificate may be acquired by:

1. Training: Completion with a pass grade of the face-to-face or online training programme.
2. Recognition of the professional skills acquired through professional experience or non-formal training (prior learning): Completion of a process of skills evaluation and accreditation in all the skills units making up the professional certificate.
3. Dual training: Completion of a training and apprenticeship contract, which may range from 1 year (or 6 months, if stipulated as such in the collective agreement) to 3 years, during which effective working time is combined with time dedicated to training under the training programme for the professional certificate.

The training method (number 1 above) requires successful completion of the training modules and the practical training at the workplace:

Description of vocational training received	Percentage of total programme (%)	Duration (hours)
Training modules	87	540
Practical training at the workplace	13	80
Total duration of training leading to the certificate		620

Entry/access requirements:

- Compulsory Secondary Education Diploma (Lower secondary education); or
- Professional Certificate Level 1 in the same professional area.
- If neither of the above or higher certifications are held, a pass in the key skills tests.

Additional information: Professional certificates are instruments for official accreditation of the professional qualifications in the National Catalogue of Professional Qualifications for all economic activities, within the scope of the labour administration. The National Repertoire of Professional Certificates is divided into three qualification levels (Level 1, Level 2 and Level 3), and by sectors into 26 professional families and 102 professional areas. More information is available at: www.sepe.es

National Europass Centre: www.oapee.es

(*) **Explanatory note:** This document is designed to provide additional information about the specified certificate, but has no legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications; Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates; and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.
