

1. TITLE OF THE CERTIFICATE (ES)

Certificado de Profesionalidad de nivel 3 en
ENAS0208 GESTIÓN DEL MONTAJE Y MANTENIMIENTO DE REDES DE GAS

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Professional Certificate Level 3 in
ENAS0208 MANAGEMENT OF THE CONSTRUCTION AND MAINTENANCE OF GAS NETWORKS
(This translation has no legal status)

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to organise, control and manage the construction, commissioning and maintenance of gas networks and auxiliary facilities, ensuring effective performance, efficiency, quality of supply and occupational and environmental safety, and complying with current law. This general competence is divided into the following **skills units** (UC):

- Collaborate in the planning of the installation of gas networks (UC1202_3).
- Control progress on the construction of gas networks (UC1203_3).
- Supervise the commissioning of gas networks (UC1204_3).
- Organise and supervise the maintenance of gas networks (UC1205_3).
- Manage the application of the occupational and environmental risk prevention measures (UC1206_3).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Planning of gas networks (MF1202_3).
- Development of work on gas networks (MF1203_3).
- Systems for commissioning gas networks (MF1204_3).
- Organisation and control of the maintenance of gas networks (MF1205_3).
- Management of occupational and environmental risks in gas networks (MF1206_3).
- Practical training at the workplace in monitoring of the management of the construction and maintenance of gas networks (MP0120)

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Plan the construction of a gas network that contains different sections of piping and different auxiliary facilities.
- Develop the material supply plans and compliance with the initial works permits.
- Supervise the tasks related to a gas network and manage the technical and administrative documentation related to the control of the work.
- Organise the work of preventive and corrective maintenance of gas networks through diagnostic techniques for breakdowns with the support of systems of automation and improvement of the performance of gas networks.
- Manage the application of the occupational and environmental risk prevention measures.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in the production area or department of companies dedicated to the construction, operation and/or maintenance of gas distribution networks. The holder may work in the electrical energy, gas, steam and water energy supply sector, in the construction, operation and maintenance of gas networks and facilities. The most pertinent occupations and positions are:

- Gas network construction manager.
- Gas network maintenance manager.
- Gas network project manager.

The holder of this professional certificate has recognition of the basic level training in labour risk prevention, according to Annex IV of the Royal Decree 39/1997 of 17 of January approving the Labour Risks Prevention Act.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the national/regional authority providing accreditation/recognition of the certificate

The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King. The certificate is valid throughout Spain.

Level of the certificate

The Professional Certificate Level 3 of the National Repertoire of Professional Certificates corresponds to level 4 of the International Standard Classification of Education (ISCED-P 2011).

The European Qualification Framework (EQF) level:

Grading scale/Pass requirements

The grading scale and pass level of the training modules are expressed on a scale of 0 to 10. The minimum score for a pass is 5 in every training module including a pass in the practical training at the workplace module.

The grading system is as follows:

- FAIL: 0 to 4.9
- PASS-SATISFACTORY: 5 to 6.9
- PASS-GOOD: 7 to 8.9
- PASS-EXCELLENT: 9 to 10

Access to next level of education/training

This Professional Certificate Level 3 gives access to Professional Certificate Level 3 within the same professional area and family.

For validation purposes, the educational authorities will recognise the professional module or modules of the VET diplomas corresponding to the skills units included in the training modules of this certificate.

Legal basis

Royal Decree 643/2011 of 9 May, establishing four professional certificates in the professional family Energy and Water, which are included in the National Repertoire of Professional Certificates. (Appendix I, Code: ENAS0208)

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

This certificate may be acquired by:

1. Training: Completion with a pass grade of the face-to-face or online training programme.
2. Recognition of the professional skills acquired through professional experience or non-formal training (prior learning): Completion of a process of skills evaluation and accreditation in all the skills units making up the professional certificate.
3. Dual training: Completion of a training and apprenticeship contract, which may range from 1 year (or 6 months, if stipulated as such in the collective agreement) to 3 years, during which effective working time is combined with time dedicated to training under the training programme for the professional certificate.

The training method (number 1 above) requires successful completion of the training modules and the practical training at the workplace:

Description of vocational training received	Percentage of total programme (%)	Duration (hours)
Training modules	85	440
Practical training at the workplace	15	80
Total duration of training leading to the certificate		520

Entry/access requirements:

- *Bachiller* Diploma (upper secondary education); or
- Professional Certificate Level 2 in the same professional area.
- If neither of the above or higher certifications are held, a pass in the key skills tests.

Additional information: Professional certificates are instruments for official accreditation of the professional qualifications in the National Catalogue of Professional Qualifications for all economic activities, within the scope of the labour administration. The National Repertoire of Professional Certificates is divided into three qualification levels (Level 1, Level 2 and Level 3), and by sectors into 26 professional families and 102 professional areas.
