

## 1. TITLE OF THE CERTIFICATE (ES)

Certificado de Profesionalidad de nivel 3 en  
EOCE0109 LEVANTAMIENTOS Y REPLANTEOS

## 2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Professional Certificate Level 3 in  
EOCE0109 SURVEYING AND ON-SITE LAYOUT  
(This translation has no legal status)

## 3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to carry out work on site and in the studio surveying land and constructions, using direct and indirect methods, and carrying out the on-site layout of projects, following established quality and safety criteria. This general competence is divided into the following **skills units** (UC):

- Carry out on-site surveying work (UC0877\_3).
- Carry out surveying work in the studio (UC0878\_3).
- Carry out on-site project layout (UC0879\_3).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- On-site surveying work. (MF0877\_3).
- Studio surveying work. (MF0878\_3).
- On-site project layout (MF0879\_3).
- Practical training at the workplace in surveying and on-site layout (MP0136)

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Obtain and analyse the graphic (photos, plans, etc.) and fieldwork information available on land and constructions, assessing the conditions for on-site layout.
- Under the guidance of a superior, design the operations necessary for on-site layout of land and construction, determining the methods, procedures, paths, designs, tolerances and operational sequence.
- Operate under the guidance of an expert, with surveying measurement and recording teams, checking calibration and giving instructions to rodmen.
- Produce a graphic representation of land and constructions defined by numerical models, designs or plans, applying established coding, scale and formats and organising the storage of data.
- Carry out and present systematic calculations relating to records of fieldwork and measurement of land, mapping, ground plans and visual basin maps.
- Operate under the guidance of an expert, with surveying measurement and recording teams, checking the calibration and giving instructions to rodmen, and noting points and alignments.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

#### 4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in the public administration services, construction companies, companies offering technical and consulting services for building and civil works, and companies in other sectors whose activities have a marked impact on the land through activities exploiting natural resources. The most pertinent occupations and positions are:

- Topographical expert.
- Topographical worker.
- Land surveying specialist.
- Construction surveying specialist.
- On-site layout specialist.
- Appliance technician.
- Topographical draughtsman.

The holder of this professional certificate has recognition of the basic level training in labour risk prevention, according to Annex IV of the Royal Decree 39/1997 of 17 of January approving the Labour Risks Prevention Act.

#### 5. OFFICIAL BASIS OF THE CERTIFICATE

##### **Name and status of the national/regional authority providing accreditation/recognition of the certificate**

The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King. The certificate is valid throughout Spain.

##### **Level of the certificate**

The Professional Certificate Level 3 of the National Repertoire of Professional Certificates corresponds to level 4 of the International Standard Classification of Education (ISCED-P 2011).

The European Qualification Framework (EQF) level:

##### **Grading scale/Pass requirements**

The grading scale and pass level of the training modules are expressed on a scale of 0 to 10. The minimum score for a pass is 5 in every training module including a pass in the practical training at the workplace module.

The grading system is as follows:

- FAIL: 0 to 4.9
- PASS-SATISFACTORY: 5 to 6.9
- PASS-GOOD: 7 to 8.9
- PASS-EXCELLENT: 9 to 10

##### **Access to next level of education/training**

This Professional Certificate Level 3 gives access to Professional Certificate Level 3 within the same professional area and family.

For validation purposes, the educational authorities will recognise the professional module or modules of the VET diplomas corresponding to the skills units included in the training modules of this certificate.

##### **Legal basis**

Royal Decree 644/2011 of 9 July, establishing five professional certificates in the professional family Construction and Civil Work, which are included in the National Repertoire of Professional Certificates. (Appendix IV, Code: EOCE0109)

## 6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

This certificate may be acquired by:

1. Training: Completion with a pass grade of the face-to-face or online training programme.
2. Recognition of the professional skills acquired through professional experience or non-formal training (prior learning): Completion of a process of skills evaluation and accreditation in all the skills units making up the professional certificate.
3. Dual training: Completion of a training and apprenticeship contract, which may range from 1 year (or 6 months, if stipulated as such in the collective agreement) to 3 years, during which effective working time is combined with time dedicated to training under the training programme for the professional certificate.

The training method (number 1 above) requires successful completion of the training modules and the practical training at the workplace:

Description of vocational training received	Percentage of total programme (%)	Duration (hours)
Training modules	80	480
Practical training at the workplace	20	120
<b>Total duration of training leading to the certificate</b>		<b>600</b>

### Entry/access requirements:

- *Bachiller* Diploma (upper secondary education); or
- Professional Certificate Level 2 in the same professional area.
- If neither of the above or higher certifications are held, a pass in the key skills tests.

**Additional information:** Professional certificates are instruments for official accreditation of the professional qualifications in the National Catalogue of Professional Qualifications for all economic activities, within the scope of the labour administration. The National Repertoire of Professional Certificates is divided into three qualification levels (Level 1, Level 2 and Level 3), and by sectors into 26 professional families and 102 professional areas. More information is available at: [www.sepe.es](http://www.sepe.es)

National Europass Centre: [www.oapee.es](http://www.oapee.es)

(\*) **Explanatory note:** This document is designed to provide additional information about the specified certificate, but has no legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications; Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates; and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.
