

1. TITLE OF THE CERTIFICATE (ES)

**Certificado de Profesionalidad de nivel 3 en
SEAG0111 CONTROL DE LA CONTAMINACIÓN ATMOSFÉRICA**

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

**Professional Certificate Level 3 in
SEAG0111 MONITORING OF AIR POLLUTION
(This translation has no legal status)**

3. PROFILE OF SKILLS AND COMPETENCES

The holder of this certificate will have acquired the **general competence** to carry out air pollution sampling and pollution control devices in accordance with current law and to operate, maintain and check the monitoring equipment and facilities for the purification and control of pollutant emissions. This general competence is divided into the following **skills units** (UC):

- Operate devices for the monitoring and sampling of air pollutants, carrying out first-level maintenance of them (UC1613_3).
- Keep up-date information on the regulations and documentation generated internally associated with air pollution control (UC1614_3).
- Sample and measure air pollution monitoring (UC1615_3).
- Operate different facilities for purification and control of pollutant emissions and carry out first-level maintenance of them (UC1616_3).

The professional skills are acquired through the **learning outcomes** defined within the related Training Modules (MF):

- Air pollution control equipment (MF1613_3).
- Air pollution regulations (MF1614_3).
- Sampling and measurement of air pollutants (MF1615_3).
- Purification and control of air pollutants emissions (MF1616_3).
- Practical training at the workplace in Monitoring of air pollution (MP0401)

(See legal basis for all learning outcomes information acquired by the holder of this Certificate in each MF).

As a reference the learning outcomes include in the Practical training at the workplace that complete and reinforce the learning outcomes acquired in the other training modules, are:

- Apply specific maintenance protocols for sampling and measurement of air pollutants equipments.
- Manage information and documentation related to the monitoring of air pollution.
- Take representative samples and measures to be transferred to other cases in predefined conditions.
- Control and purify air pollutant emissions with mechanical, electrical or monitoring equipment.
- Take part in the company's working processes, following the rules and instructions established at the workplace.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THIS CERTIFICATE

The holder of this certificate may work in any sectors that have potential air pollutants, particularly in the industrial sector. The holder may work in the service sector associated with the control of air pollution and in air pollution control laboratories.

The most pertinent occupations and positions are:

- Sampling air pollutants technician.
- Air pollution monitoring technician.
- Technician working in analysis and measurement associated with the control of air pollution.

5. OFFICIAL BASIS OF THE CERTIFICATE
<p style="text-align: center;">Name and status of the national/regional authority providing accreditation/recognition of the certificate</p> <p>The Ministry of Employment and Social Security or the corresponding autonomous regional administration within the scope of its competence, in the name of the King.
